Customs Access Seal Eligibility

Employees applying for access to the Customs Security Area (CSA) at **Logan Airport** must establish authorized residency in their application for unescorted access to the CSA pursuant to 19 C.F.R. § 122.182(c). Keep in mind that while a valid Employment Authorization Document (EAD) grants permission to work in the United States, it **does not** confer authorized residency status. United States Citizens and lawful permanent residents have authorized residency status. Additionally, certain EAD cardholders may be entitled to authorized residency status.

Representatives for USCBP at **Logan Airport** have stated an EAD code C08 or C11 does not qualify the holder for unescorted access to the CSA under 19 C.F.R. § 122.182(c).

Questions regarding eligibility can be directed to CBP Security and Seals team.
